Feilding & Districts Community Archive

26 September 1907

Boisterous, rainy, dismal and unpleasant weather was experienced in Feilding for three days, causing masses of water lying in Feilding streets and paddocks. At the Beattie Street crossing the water was right across the surface of Kimbolton Road, the Railway yards were covered in water and the footpath from the Council Chambers to the Square was immersed.

Open 10am to 4pm Thursdays

.. and other days by
arrangement
